

Specified Personnel

Staff appointments to the positions within CO2CRC set out in the original Schedule 1 of the Commonwealth Agreement have all been completed. During 2004-05 these positions were expanded to address the responsibilities arising from the restructure of the Centre's programs and an earlier than expected increase in demands on the Centre's research activities, particularly with the development of a major pilot project.

Table 7. CO2CRC specified personnel.

Title and Name	Role in the CRC	Contributing Organisation	Time allocation to CRC (0.0 - 1.0)
